

## Classification of Living Things Chart

	Monerans		Protists	Fungi	Plants	Animals
	Eubacteria	Archaeobacteria				
<b>Producers (Autotrophs)</b>		<b>SOME</b>				
<b>Consumers (Heterotrophs)</b>		<b>SOME</b>				
<b>Unicellular</b>		<b>YES</b>				
<b>Multicellular</b>		<b>NO</b>				
<b>Eukaryotic</b>		<b>NO</b>				
<b>Prokaryotic</b>		<b>YES</b>				
<b>Cell Wall</b>		<b>YES</b>				
<b>Example 1.</b>		<b>Methanococcus</b>				
<b>Example 2.</b>		<b>Sulfolobus</b>				
<b>Example 3.</b>		<b>Halococcus</b>				

**Most current books split the Moneran Kingdom into 2 kingdoms the Archaeobacteria and the Eubacteria. This table will be a valuable reference the remainder of the year!**
